

# Since 2004

**AMD INDUSTRIES, AERONAUTICAL SUPPLIER OF SCREW, FASTENER ELEMENT  
AND SPARE PARTS**

[www.amd-industries.com](http://www.amd-industries.com)

# Who are we ?

AMD is a Global leader in Aviation product supply, providing essential spares across all aspects of the Aviation Industry, supplying Airforces, Airlines and major organisations that all demand one crucial factor - guaranteed products, with guaranteed, on time delivery. We also provide our global customers with many solutions across all repairs and engineering solutions for product enhancement, obsolescence, re-engineering and life extensions.

Today we support the Global Aviation Industry with a diverse range of Spare Parts across all of the following key areas of product supply...

AMD provides a leading commercially competitive service for our growing list of Global customers. AMD stocks and distributes on behalf of many of the industry's leading manufacturers... allowing us to pass on very competitive commercial terms which include parts that are exclusively sold through ADS. Couple this with our in depth export handling knowledge and experience in supplying all types of products and spare parts to global customers... only made possible by managing the complexities of international export controls to make sure your deliveries are safe and, most importantly, on time. All of the above ensures that each customer receives

**Equipment** ... life support & safety  
**Consumables** ... nuts & bolts of the industry  
**Maintenance** ... repair and overhaul (MRO)  
**Global Database** ... visit our fast, extensive, online service

**Military** ... supply & support  
**Civil Aviation** ... supporting you worldwide  
**Defence** ... where supply is critical & specific  
**Ground Support** ... when and where you need it

## SINCE 2004

AMD is a global leader in the supply of aeronautical products, supplying essential spare parts in all aspects of the aviation industry, supplying air forces, airlines and large organizations which all demand one crucial factor – guaranteed products , with guaranteed and on-time delivery.

We also provide our global customers with numerous solutions covering all repair and engineering solutions for product improvement, obsolescence, re-engineering and life extension.

Today, we support the global aviation industry with a diverse range of spare parts in all of the following

Military performance is paramount in the minds of all those associated with Government Defence departments. So it is crucial that your source of product supply and support service is one you can trust and rely on.

AMD supplies a full global parts and spares support service for all military aircraft, ensuring that defence departments worldwide are able to maintain a high level of military capability at all times.

Our extensive range of services and in-depth product understanding, as well as offering through our (OEM) partnerships, many beneficial financial packages.

**AMD Industries, NATO approved  
supplied under number FAPD7.**

The Civil Aviation Industry goes on demanding ever increasing standards in service and performance capabilities.

Both airlines and private owners are increasingly under pressure to supply serviceable fleets at all times if they are to remain in the skies, and be cost effective in a new age of customer service

For over 20 years AMD has delivered a **QUALITY ASSURED** service throughout the Aerospace industry.

AMD is able to provide TFE731 spares, which are used on a number of different aircraft types, like the Cessna Citation (shown here).

AMD holds stock of a number of parts which are required in order to support the repair and overhaul process, offering short leadtimes and competitive pricing.

To keep your defence capabilities at the cutting edge it is essential that your supply line is from a reputable leader in the aviation industry ... AMD guarantees critical, on time supply

- ✈ Naval Ship Spares
- ✈ VHF / HF / UHF Radio's / Satcom
- ✈ Radar Systems
  
- ✈ Communications Networks
- ✈ GPS & Global Navigation Systems
- ✈ Land & Maritime Satellite Communications
  
- ✈ TALIN - Inertial Land Navigation Family
- ✈ HUMS - Health and Usage Monitoring

Life support is a vital part of the aviation industry. AMD supports this crucial supply with over 20 years experience... guaranteeing you the right product... at the right time... anywhere across the world.

## MEL Aviation

- ✕ Pilot Oxygen Masks
- ✕ Pressure Regulators
- ✕ Transducers
- ✕ Inflation Valve
- ✕ Helmet Headset
- ✕ Pilot: Suits / Gloves / Helmets

## Saffran Aero Safety Systems

- ✕ Pilot Safety Harness / Belt
- ✕ Hoist Belts
- ✕ Parachutes / Brake Parachutes
- ✕ Fire Extinguishers
- ✕ Aviation First Aid Kits
- ✕ Rafts and Survival Equipment

AMD manages a number of Maintenance and Repair contracts for Government based end users. AMD ensures that the process is smooth and programmed deliveries are made on time.
